

How to Get Your Defensive Driving Certificate

1. Go to: <http://ehs.uc.edu/itc/>
2. Click “**All Courses**”

Environmental Health & Safety Interactive Training Center

Welcome to the Environmental Health & Safety Interactive Training Center!

The ITC is a central point of access for all health and safety training offered to the University community. Using the navigation menu to the left, you can learn about all of the courses we offer, including:

- Training to complete OSHA requirements, such as Hazard Communication and Bloodborne Pathogens
- Our extensive library of computer-integrated training programs, which you can schedule online and complete the training in our office at a convenient time.
- A variety of informational courses that do not record your participation for credit.

Questions? Comments? E-mail Environmental Health & Safety about this page.

University of Cincinnati: EH&S Defensive Driving Training

Lesson 1 Quiz

Lesson 1: Before You Start Your Trip

The point of defensive driving is to keep you and your passengers safe. While much of the knowledge needed to accomplish this is related to actual driving situations, there are also some very important aspects that take place before you even leave the parking lot. Knowing that your vehicle is in sound mechanical shape, understanding the brake technology with which it is equipped, planning your trip carefully, and making sure you have an appropriate safety kit are all highly important to making sure your trip is safe and successful.

5. Once completed, Print 2 copies of your certificate. Keep one in safe place and give the other to the Treasurer. This is required if you plan on being a driver!

This certificate is your proof of completion of this training program. Provide a copy of your certificate to your business office and keep a copy for your records.
